  - Request for Funds:

  NHS Theater: In their request for funding, and along with their teacher, Sarah Kane, two members of the NHS theater group performed a number from their upcoming show, Sweeny Todd. The PTO was fascinated and impressed with the confidence and talents of Ilaria and Aidan! The request was $1,500 to assist with hiring professional musicians for the show. It was explained that the NHS theater department had a lower budget this year than normal. The plan is to make money at this upcoming show, which would then go into their account for next year. In other words, this is a one-time request that will enable the department to get a running start for future years. Request approved for $1500. Break a leg, gang!

  NHS Music Department: Request for $500. The music department is traveling to Disney World to perform and attend workshops. There are 66 students going. The monies requested would go towards scholarships for students in need. The music department has also involved “Hands That Rock” as a fundraising opportunity for these scholarships. Request approved for $500. Have a Magical Time, musicians!
