

We're ready to build fun!

S.A.N.D. box Newsletter

Get ready for the big diggers – Project SANDbox is gearing up for the construction phase! With the fundraising days behind us (yay!), and a successful contract bidder selected, we are preparing to start digging. The kinder yard will be out of commission through July and August as the old equipment is removed, the new dry well is installed, and beautiful new equipment is put in place.

Hopewell's new kinder yard is going to be stuffed with new ways to have fun including:

- A huge sandbox with a hidden surprise!
- A double slide sized just right for kinders
- Transfer platforms and new surfaces for accessibility
- 2 natural wood play huts
- New trees for much needed shade
- A wooden stage for budding Shakespeares... *and so much more!*

You can see the plan for the new yard in the OSCAR's summer edition.

Thanks to the community and volunteers for building a legacy of fun!

Huge thanks to our generous corporate donors including **Mont Cascades** and **ProSlide**, for their support.

This community project was made possible through partnerships with the City of Ottawa.

We appreciate the generous support of the TD Friends of the Environment Foundation.

Together we're building a playground that includes:

- S: increased Shade
- A: improved Accessibility
- N: Natural play elements
- D: proper Drainage

*And, of course,
an actual sandbox!*

What's next for Project SANDbox?

Building:

- The construction will begin mid July. Keep an eye on our social media accounts for updates.
 - The new yard is expected to be ready in time for next September!

Grand Opening:

- After the construction is complete, join us to celebrate the amazing new yard! Let's hope that we can all be together in-person for the ribbon cutting.
