

Back to School Medical & Dental Checkups and Sports Physical

Community Health Center of Snohomish County is partnering with Edmonds School District to bring you these services at the Back to School event, August 11-13. We will call you to schedule an appointment at this site. If you have questions, please contact us at (425) 789-3789.

Medical Checkups

Annual checkups keep your child healthy by looking for symptoms of any medical conditions.

During the visit, staff will check:

- Vital signs
- Heartbeat and breath sounds
- Immunization status
- Risk factors for health problems or injuries
- Head, eyes, ears, nose, throat, and neck
- Abdomen for tenderness
- Muscle strength, reflexes, and balance

Dental Screenings

Dental screenings allow dental providers to check your child's teeth, mouth, and their overall dental health.

For a dental screening, staff will:

- Examine teeth, gums, and tongue
- Review oral hygiene instructions - brushing, flossing
- Recommend good food choices for oral health
- Apply fluoride
- Provide dental supplies (toothbrush, toothpaste, floss)
- Recommend any dental follow-up that may be needed

Sports Physicals

Students wanting to play sports need an annual sports physical to be certain they are healthy and safe to play.

A sports physical will:

- Check general health
- Measure the maturity of the body
- Review injuries your child has now or in the past
- Find conditions your child may have been born with that could make them more likely to be injured
